each other up.

## **A Student's Guide to Home Learning**

Although learning at home is very different to learning in school, we hope that with these handy tips and reminders, you will enjoy discovering new ways to challenge yourself at home.

### **Where can I find my Home Learning Tasks?**

If you are in Class 3 or 4, you have been practising logging in to Google Classrooms. You will need your G-Suite login to access Google Classrooms. This can be found on your login reminder card. Your child's class teacher will set you weekly tasks and challenges to complete. You can also hand in your finished learning to your teacher via Google Classrooms.

If you are in Class 1 or 2, your grown up will help you access your learning on Google Classrooms.

If you are unable to access Google Classrooms at home, don't panic! You can still find a weekly task sheet on our school website.

### **How much learning should I do a day?**

In Class 1 and 2, you should try and do at least 2 hours of learning a day. In Class 3 and 4, you should try and do at least 3 hours of learning a day. This doesn't have to be all in one go! You should timetable in regular breaks to help you stay motivated.

### **What if I can't remember my login details?**

All your login details will be on your login card. Or you can contact your class teacher.

### **What if I get stuck?**

Think about our Building Learning Power skills! You could try thinking about the learning in a different way? Or maybe see if a grown up or another member of your family could help you? What about thinking back to other learning you have completed in the past? Remember to keep persevering! If you get REALLY stuck, you can email your class teacher and they will try and help you.
