

Home Learning: Class 4: Week Commencing 13th July

Please email completed work, pictures, photos or other examples of Home Learning to:

Class4@witheridge.devon.sch.uk

Should you have any questions, or need any further support, please don't hesitate to ask!

Take care,

Mrs Nott

English:

Task	✓
1. Find the 'Olympic Games' document on the Home Learning area. Read the information and answer the questions in your book. I have also included the answers here so you can check how you've got on. Remember, it will help your learning best if you have a go by yourself first, then check to see if you are correct!	
2. Choose your own Olympic athlete. Find out all you can about them, and create an Olympic Champion Fact File about them. You can use the sheet on the Home Learning area to help if you like, or create your own Fact File layout. 	
3. Visit the BBC Daily Lessons website at: https://www.bbc.co.uk/bitesize/articles/zvmmkty This will take you to an interactive lesson on writing a comic and using parenthesis. Complete the activities, and then write your own Comic Strip about 'Life in Lockdown'. You can use the 'Comic Strip' sheet on the Home Learning area to print, or to give you an idea for layout if you like. Try to include some dramatic details and some funny moments, too.	
4. Look at your copy of the 'Year 5 and 6 Statutory Word List'. Over the past few weeks, we have focused on some of these words to practise and learn. Test yourself on all those words. Are there any you need to practise some more? Are there any of the other Year 5/6 words you could learn? Perhaps you could use the strategies we've tried over the past few weeks. Maybe you even have your own way to remember!	
5. Read your book every day! Don't forget, there are over 40,000 books to choose from on Epic!	

Maths:

Task	✓
Visit https://whiterosemaths.com/homelearning/year-6/	
Go to Year 6, Week 12.	
This will take you to a series of lessons to further develop your understanding of data and charts. The accompanying worksheets and answer sheets can be found on the Home Learning area. Complete as many of the sessions as you can this week. For the remainder of this half term, we will largely be following the White Rose programme to support our Home Learning in maths.	
1. Lesson 1 - Draw nets of 3D shapes	
2. Lesson 2 - Circles	
3. Lesson 3 - Read and Interpret Pie Charts	
4. Lesson 4 - The Mean	
5. Log on to Mathletics and TT Rockstars to complete the activities and practise your multiplication skills.	

Other Tasks to Complete

Science	✓
Go to the Oak National Academy Year 6 classroom here: https://classroom.thenationalacademy/subjects-by-year/year-6/subjects/foundation Scroll down to the bottom, until you find the science unit on Physical and Chemical Changes. This week, you should aim to complete Lesson 6, called 'What Happens During Burning?'	
Topic	✓
<u>Olympic Country Project: Week 3</u> This week, you will be continuing your in-depth project on an Olympic country. Hopefully, you have now chosen a country, and completed research on a number of different areas. You now need to choose how to present your learning effectively. Think about which facts are linked, and how you will make your research into an effective finished piece of work. Your finished project should contain: <ul style="list-style-type: none">• A bold title with the name of your chosen country• A map of where your country is in the world• At least 3 different subheadings, with at least 3 sentences written for each You may choose to add in more elements to make a mega-project on your country! Develop it into a piece of work you're really proud of.	
Email me your completed work at class4@witheridge.devon.sch.uk
